- Support for Canon's device management utilities, including Remote UI

The imageRUNNER 1023 Series devices are the ideal choice for busy work-groups and hardworking small businesses that require dependable performance every time, all the time. Operating at up to 23 ppm (letter), these compact desktop solutions will put affordable, multifunction capabilities within easy reach.

The imageRUNNER 1023iF device is the advanced model in the Series, and it provides all the necessary tools for the most demanding environments. The device features full color-enabled document distribution features, powerful Super G3 faxing, and a 50-sheet Duplexing Automatic Document Feeder as standard. The imageRUNNER 1023N model supports digital copying, network printing, and color scanning features, along with the added convenience of a 50-sheet Duplexing Automatic Document Feeder. The platen-based imageRUNNER 1023 model delivers digital copying, high-quality laser printing, and color scanning capabilities.

So whether you're upgrading from older, slower technology or consolidating several pieces of equipment to save space and lower costs, the imageRUNNER 1023 Series devices are the right choice for you.
