

## INDUSTRIES/MARKETS

- > Legal Services
- > Banking/Financial Services
- > Government and Public Administration
- > Healthcare and Social Assistance
- > Education
- > Insurance
- > Manufacturing

## BENEFITS

- > Optimizes workflow efficiency
- > Increases productivity
- > Allows greater control of document distribution

## Production Scanners

### imageFORMULA

Canon's line of imageFORMULA DR-Series production scanners is designed to maximize productivity in high-volume, centralized data capture environments. These scanners maintain document integrity at rapid speeds for mission-critical document conversion and content management.

#### KEY FEATURES

- > High-speed scanning and reliable feeding
- > Durable design
- > Universal models with flatbed and ADF available

#### AVAILABLE MODELS

- > imageFORMULA DR-X10C
- > imageFORMULA DR-9050C
- > imageFORMULA DR-7550C
- > imageFORMULA DR-6050C

#### Universal Production Scanner

- > imageFORMULA DR-7090C

## Check Transports

### imageFORMULA

The Canon imageFORMULA CR-Series of check transports converts paper checks into electronic images, helping to decentralize payment processing from the first point of presentation to settlement. They can be used in a wide variety of applications, including low-volume teller, branch, and remote deposit/merchant capture as well as high-volume branch and utility capture and remittance/lockbox processing.

#### KEY FEATURES

- > High speed
- > Compact footprint
- > Convenient and easy to use

#### AVAILABLE MODELS

- > imageFORMULA CR-190i
- > imageFORMULA CR-135i
- > imageFORMULA CR-80
- > imageFORMULA CR-50
